Learn the best practices and principles of the trade from the largest construction companies in the nation. Learn from the top professionals in our ten week training series with topics such as Risk Management, Change Order Management, Business Development, Blue Print Reading and Specifications, Purchasing and Bidding Procedures, Pre-construction and Estimating, Cost and Budget Control, Financial Management, Safety on the Jobsite, OSHA, Project Engineering and Records Set-up, Building Code Compliance, Job Planning and Set-up, Insurance and Bonding, Building Information Modeling (BIM), Workers Compensation and more.

For more information contact: Rhonda Wimberly
Turner Construction Company, Community Affairs Director
(786) 621-9004 or rwimberly@tcco.com
Fax your completed registration forms to (786) 621-9005

The Turner School of Construction Management is an educational program designed by Turner to assist disadvantaged, small, minority and women owned businesses in the best principles and practices in the construction industry. Each graduate receives credit for 40 contact hours (4 continuing education units) which can be utilized towards the renewal of their state contractors' license.

In 10 easy weeks, you will have the opportunity to have industry experts and community leaders explain how certain key factors will help you run a more efficient construction company.

or e-mail rwimberly@tcco.com

DIRECTIONS from I-95 or Turnpike:

Exit Glades Road EAST. Proceed to FAU Boulevard (2nd FAU entrance going east on Glades Road). Turn left and proceed NORTH. Continue in the left lane as the road has a fork in it. Park in front of the building on the left (between the building being constructed and the building with 2 green smoke stacks on the roof).
