

**Miami-Dade Community College**  
**OST2828 - Presentation Software for the Office (PROPOSED)**

Catalog Description:

This hands-on, one credit class is designed to provide students with an introductory experience on the use of presentation graphic software for office and business applications. This class covers basic presentation software concepts, features, and functions. Classes are conducted in a laboratory environment where a microcomputer is available for each student. The content of this class will continually change to keep pace with current technology.

*1 Credit*
