**Competency 4:** The student will utilize a deep and comprehensive knowledge of the subject taught by:

1. Delivering engaging and challenging lessons.
2. Deepening and enriching students’ understanding through content area literacy strategies, verbalization of thought, and application of subject matter.
3. Identifying gaps in students’ subject matter knowledge.
4. Modifying instruction to respond to preconceptions or misconceptions.
5. Relating and integrating the subject matter with other disciplines and life experiences.
6. Employing higher-order questioning techniques.
7. Applying varied instructional strategies and resources, including appropriate technology, to provide comprehensible instruction and to teach for student understanding.
8. Differentiating instruction based on an assessment of student learning needs and recognition of individual differences in students.
9. Supporting, encouraging, and providing immediate and specific feedback to students to promote student achievement.
10. Utilizing student feedback to monitor instructional needs and adjust instruction.

**Competency 5:** The student will practice assessment by:

1. Analyzing and applying data from multiple assessments and measures to diagnose students’ learning needs, inform instruction based on those needs, and drive the learning process.
2. Designing and aligning formative and summative assessments that match learning objectives and lead to mastery.
3. Using a variety of assessment tools to monitor student progress, achievement, and learning gains.
4. Modifying assessments and testing conditions to accommodate learning styles and varying levels of knowledge.
5. Sharing the importance and outcomes of student assessment data with the student and the student’s parent/caregiver(s).
6. Applying technology to organize and integrate assessment information.

**Competency 6:** The student will through a culminating practicum, demonstrate knowledge of the components of reading, as well as assessments and data analysis, to implement a comprehensive research-based reading plan of instruction for all students using a systematic problem solving process by:

1. Using assessment and data analysis to monitor student progress and guide instruction over time to ensure an increase in student learning.
2. Demonstrating research-based instructional practices for facilitating reading comprehension.
3. Demonstrating research-based instructional practices for developing oral/aural language development.
4. Demonstrating research-based instructional practices for developing students’ phonological awareness.
5. Demonstrating research-based instructional practices for developing phonics skills and word recognition.
6. Demonstrating research-based instructional practices for developing reading fluency and reading endurance.
7. Demonstrating research-based instructional practices for developing both academic and domain specific vocabulary.
8. Demonstrating research-based instructional practices to facilitate students’ monitoring and self-correcting in reading.
9. Demonstrating research-based comprehension instructional practices for developing students’ higher order thinking to enhance comprehension.
10. Demonstrating research-based instructional practices for developing students’ ability to read critically.
11. Demonstrating differentiation of instruction for all students utilizing increasingly complex print and digital text.
12. Demonstrating skill in assessment and instruction with English language learners from diverse backgrounds and at varying English proficiency levels.
13. Creating an information intensive environment that includes print and digital text.
14. Using a variety of instructional practices to motivate and engage students in reading.
15. Demonstrating intentional, explicit, systematic writing instruction as it relates to the ability to read written language.

**Competency 7:** The student will demonstrate familiarity with a variety of professional resources by:

1. Locating, critiquing and interpreting child development and educational research literature as it informs instructional decision-making.
