

Course Competency

HIM 2810 PROFESSIONAL PRACTICE EXPERIENCE 2

Course Description

A supervised clinical practice in a health care setting. The student will perform coding of patient health records utilizing the International Classification of Disease, 9th Revision, Clinical Modification (ICD-9-CM). Automated coding using the computer and encoding software is performed. Prerequisites: HIM 1110, HIM 1110L; Corequisite: HIM 2500L, HIM 2512C. (6 hr. lab/clinic)

Course Competency	Learning Outcomes
<p>Competency 1: The student will demonstrate knowledge in inpatient and outpatient proper and ethical coding rules, MS-DRG assignment, and address denials/rejections by:</p>	<p>1. Ethical Issues</p>
<ol style="list-style-type: none"> 1. Discovering the specialized professions and duties within the coding clinical site department 2. Applying AHIMA Standards of Ethical Coding 3. Applying knowledge of Coding Clinic and CPT Assistant to resolve coding dilemmas 4. Analyzing remittance advice form, denials, and rejections 	
<p>Competency 2: The student will demonstrate knowledge in deciphering data from the medical record by:</p>	<p>1. Information Literacy</p>
<ol style="list-style-type: none"> 1. Adhering to Official Guidelines for Coding and Reporting 2. Assessing source document for coding optimization 3. Validating classification system assignments for claims reimbursement 	
<p>Competency 3: The student will demonstrate skill in data entry and retrieving reports from facilities databases by:</p>	<p>1. Computer / Technology Usage</p>
