Legal Specialty Course Information Sheet

(Part I)

Course Title:	Intellectual Property Law Legal Specialty Seminar
Course Number:	PLA 2935
Credits/Units	1.0 hour
Course Description:	This course covers practical and theoretical learning in U.S. Intellectual Property Law. This course focuses on patents, trademarks, and copyrights, and how these three areas of law work together to form a comprehensive groundwork on how to deal with the unauthorized use of intellectual property. This course provides a study of the foundations and subject matter of patents, trademarks, and copyrights and their functions in the legal process. Students will also gain an understanding of key terms and central elements of intellectual property law. (1 hour lecture)
Course Objectives:	Students who successfully complete this course will gain competence in: <ol style="list-style-type: none">1. Key intellectual property terms;2. Key laws and regulations governing intellectual property;3. How to research intellectual property laws, regulations, cases and forms; and4. How to avoid the unauthorized use of intellectual property and other ethics violations as they relate to intellectual property.
Required Text & Other Materials:	No textbook is required for this class; there will be several readings assigned over the semester. Optional reading: Miller, Arthur R., and Michael H. Davis. <u>Intellectual Property: Patents, Trademarks, and Copyright</u> . 4 th ed. St. Paul, MN: Thomson/West, 2007.
Methods of Evaluation of Student Performance:	In addition to participation in class, two written projects will be required in order to evaluate student performance.
Practical Assignments that Develop Paralegal Competencies:	In addition to examining intellectual property key concepts and cases, two written projects will be required in order to develop paralegal competencies.
