

Course Competency

SON 1824 Clinic 3

Course Description

This is the third in a series of six (6) clinics in which the student is assigned to a medical facility. The student is afforded hands-on experience in sonography under the supervision of a clinical instructor, sonographer or physician. Prerequisite: SON 1814.

Course Competency	Learning Outcomes
<p>Competency 1:The student will demonstrate knowledge and comprehension of ergonomics by:</p> <ul style="list-style-type: none"> a. Demonstrating proper body mechanics when scanning a patient. b. Demonstrating proper body mechanics when moving a patient. 	<ul style="list-style-type: none"> 1. Critical thinking
<ul style="list-style-type: none"> c. Demonstrating proper body mechanics when moving machines. 	
<p>Competency 2:The student will demonstrate knowledge of the role of the sonographer by:</p> <ul style="list-style-type: none"> a. Assisting with the ultrasound exam by providing basic images. b. Listing and discussing protocols for each exam. c. Preparing patients for the ultrasound exam. d. Preparing rooms for the ultrasound exam. e. Identifying image storage technique. f. Demonstrating basic patient care skills. g. Demonstrating attention to patient safety. h. Demonstrate preparation to start an exam and prepare ultrasound machine and room. i. Demonstrating basic skills for prevention 	<ul style="list-style-type: none"> 1. Communication 2. Information Literacy 3. Environmental Responsibility
<ul style="list-style-type: none"> of infection. j. Locating emergency equipment and supplies. 	
<p>Competency 3:The student will demonstrate knowledge and application of image optimization by:</p> <ul style="list-style-type: none"> a. Evaluating images and applying proper technique. 	<ul style="list-style-type: none"> 1. Information Literacy

b. Identifying and comparing gain and power.	
c. Identifying preset. d. Identifying zoom. e. Identifying focus and aliasing	
Competency 4: The student will demonstrate knowledge of the sonographic appearance of pathology by: a. Identifying basic view within the scanning protocol. b. Identifying all structures within each protocol view. c. Discussing normal measurements within	1. Communication 2. Information Literacy
the protocol. d. Describing abnormal findings. e. Discussing differential diagnosis.	
Competency 5: The student will demonstrate clinic preparedness by: a. Participating in the daily activities of the sonography department. b. Demonstrating professional and ethical conduct and adherence to rules and regulation of the school and clinical site. c. Communicating with patients, medical	1. Communication
staff, and physicians in a professional manner.
