

12-Credit Rule Statement for Dual Enrollment Students

As stated in the Dual Enrollment Rule, 6A-14.064 and in Florida Statutes, Section 1008.30:

Students who have been identified as deficient in basic competencies in one of the areas of reading, writing or mathematics, as determined by scores on a postsecondary readiness assessment (CPT, PERT, SAT, ACT), will not be permitted to enroll in college credit courses in areas precluded by the deficiency.

Students may **not** earn more than twelve (12) college credit hours prior to the correction of all deficiencies.

Exceptions to the twelve (12) college credit hour limitation may be granted by the postsecondary institution provided that the dual enrollment student is concurrently enrolled in a secondary course in the basic competency areas for which they have identified as deficient by the postsecondary readiness assessment.

This statement serves as an advisory that accumulating excess credits may affect State University admission, and financial aid, and lead to increased tuition costs in the future. (S.1009.286 F.S.)
