3:20 p.m.: Wrap-up, Announcements, News, and Adjourn

Next Meeting TBA: Will be online

---

**DE Subcommittees**

**Course Development**

What additional training would help faculty to improve their online teaching, course management, and content and strategies? How about a fully online training course with lab time for practice and assistance?

Please advise as to the suggested process of course review and certification - includes completion of CT&D training, chair sign-off, OCP self-assessment of course, instructional design review, content review, and peer review during the pilot?

How can the M-DCC Library resources be better integrated into the courses?

**DE Program Planning**

How should DE go about planning and implementing a Master Plan for VC Course/Program Development? How about the funding to implement a broad effort of course development?

How can the VC become better known at the campuses and have information available to interested students?

**Faculty Support/Issues**

How to improve rate of return for student evaluations? Should they be required?

What should be included on the VC Entry Test?

What strategies should be included in action plans to improve each area evaluated by the alternate student feedback instrument?
