

## Student Ambassador Implementation Action Plan

Please discuss what your institution does or will do in each of the following categories to ensure that the tools are in place to integrate a student ambassador program at your institution.

(1) **What would a student ambassador program ideally look like at your institution?**

(e.g., would it be part of a service-learning infrastructure, is there money for support; [e.g., FWS stipends, activities, trainings], how many student ambassadors do you need, who will supervise, etc.)?

(2) **Who is needed at your institution to make this ideal a reality and what are their primary roles in making this happen? (self, administrators, students, faculty, etc.)**

(3) **What challenges will you have to address?**

(4) **What next steps will you take to implement the student ambassador program at your institution? Be certain to create a timeline for accomplishing these steps.**

(OVER)

(5) **Reflection** (What will you do to ensure that students reflect on their experience as a

student ambassador?)

(6) **Initial Orientation/Training** (What will you do to ensure high quality orientation/training for your student ambassadors?)

(7) **On-going Support/Communication** (What will you do to ensure on-going support and open lines of communication with your student ambassadors?)

(8) **Recognition** (What will you do to recognize your student ambassadors?)

(9) **Miscellaneous** (What other best practices can you think of? e.g., how will you evaluate your student ambassador program, etc.?)
