READ BEFORE STARTING--IMPORTANT KEYS TO SUCCESS!

- ⚡ *Read the agency write-up carefully before calling.*
- ⚡ *Many of these agency supervisors are hard to reach. Be persistent, call several times. If you still can't get them, try another agency.*
- ⚡ *Also, some agencies only need a few students, so you may not get your first choice!*
- ⚡ *Your placement must be confirmed by your instructor's deadline--no excuses! If you are having trouble, call our office and we will help.*
- ⚡ *Be proactive--make your experience great. Waiting until the end of the term and then complaining is unacceptable. If you are dissatisfied, **TALK TO YOUR SUPERVISOR!** If this doesn't work, call the Center for Community Involvement and we'll help you.*
- ⚡ *Be responsible, make a commitment and stick to it. The agency is counting on you. Show up on time and always let your supervisor know ahead of time if you must miss a session.*
- ⚡ *Have fun and learn as much as you can!*

MIAMI-DADE PARKS, ADOPT A NATURAL AREA, Park and Recreation Department,

22200 SW 137th Avenue Miami, FL 33170

CONTACT: Magaly Bashir, Volunteer Coordinator, (305) 257-0904 or (305) 257-0933 (Fax: 305-257-1086).

DESCRIPTION: Natural areas are the hammocks, pinelands, wetlands, mangrove forests, and seashores that once covered all of Miami-Dade County, but now remain only in undeveloped, protected areas. These habitats, and the plants and animals that live there, are all a part of Miami-Dade County's natural heritage, and a resource to be treasured for generations to come. Non-native plants, introduced from around the world, have invaded these unique natural areas. They crowd out rare native plant species, seriously disrupting important natural processes such as storm recovery, and natural fire cycles. The control of non-native plants is considered one of the most important elements in the management of all natural habitats.

OPPORTUNITIES : The Department's Natural Areas Management (NAM) Program began the overwhelming task of exotic plant control in 1991. NAM's Volunteer Program fosters civic responsibility and knowledge for the common good. As a volunteer or student, you are given the opportunity to assist in the restoration of one of Miami-Dade County's natural areas by removing exotic plants, planting seedlings, or picking up trash. Students and volunteers are taught to identify various invading non-native plants while gaining a greater understanding of these ecosystems. Other opportunities include historical research, fund raising and general office work. Now more than ever, Miami-Dade Parks need the support of the entire community to restore and maintain our natural areas. With your help we can accomplish this important task! Additional opportunities available for a computer programmer and a volunteer coordinator. These are great opportunities for students in a marketing, finance, business, computer, and a direct look at how the government works.

HOURS NEEDED: Saturdays at various sites from 9:00am - noon. **Students are required to commit to a minimum of 12 hours.** Call the Natural Areas Management office for calendar dates and locations at (305) 257-0904.

COMMENTS: For volunteer workdays, all individuals should come dressed to work in the woods. Closed-toe shoes are mandatory. Long pants and a long-sleeved shirt are strongly recommended. All groups of 10 or more must call Magaly in advance to sign up. Individuals do not have to pre-register.
