

ASSESSMENT AND THE SERVICE-LEARNING COMPONENT

Workshop Type: Professional Development

Category: Curriculum Development

Duration: 1.25 hours

Description:

Participants in this workshop will explore how to assess students' mastery of course learning objectives when participating in service-learning. A variety of assessment techniques will be studied and a course design with emphasis on assessment of the service-learning component will also be developed.

Objectives:

Participants will be able to:

1. Determine the array of assessment techniques in the service-learning process.
2. Understand what components are needed for students to connect their service experience with course learning objectives.
3. Utilize a method of assessment appropriate to their module and its learning objectives.
4. Assess the service-learning component for a given course.

Evaluation

1. I can determine the array of assessment techniques in the service-learning process.
2. I understand what components are needed for students to connect their service experience with course learning objectives.
3. I can utilize a method of assessment appropriate to their module and its learning objectives.
4. I can assess the service-learning component for my course.
