Microsoft 2007 Support and Training

What's New Demonstrations

- These one-hour demonstrations will highlight the new interface and new features. For many experienced users, this may be enough to get you going with 2007

Online Training

- Basic and Advanced courses as well as What's New courses for all the new Office applications are available. Be sure to specify the 2007 version when you request a course.

Lab Support

- One-on-one help is available in all CT&D labs during open lab hours

Online Support

- See the Resource page for links to how-to-articles, videos, etc.

Basic Training in 2007 Apps.

- Basic application workshops will be offered in the new version beginning in October at certain campuses. Check the CT&D catalog for information.

New Features

- Streamlined interface
- Ribbons and Tabs
- Style Galleries
- Mini Tool Bars
- Live Preview

And more...

- Building Blocks (Word)
- Redesigned charting (Excel)
- PDF support (Access)
- Smart Art Graphics (PowerPoint)
- New Navigation Pane (OneNote)
