

Nurse ProCalc Make a Test Syllabus

To access the Nurse ProCalc Make a Test, click on the Start Button > All Programs > Academic Software > Academic Courtyard > Nursing Software > Nurse ProCalc Make a Test.

Make a Test

Nurse ProCalc Make-a-Test provides four options for test takers: Select a Test by Name, Take a Randomly Selected Test, Self-Test, and View Test Scores.

A. The Select a Test by Name

Allows you to select and take a test made by an instructor. Test must be selected by the name provided by the instructor. Tests may only be taken once.

B. Take a Randomly Selected Test

When you select the Take a Randomly Selected Test button the program will select an instructor-made test for you. You may first have to select a group name provided by the instructor. Tests may only be taken once.

C. The View Test Scores

The View Test Scores button will show any test scores with missed questions for instructor made tests you have taken. Instructors may limit your ability to see this information.

D. Self Test

The Self Test button allows you to create and take you own test. Instructors may prevent you from creating and taking a self-test.
