Work Environment:

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job.

While performing the duties of this job, the noise level in the work environment is usually quiet.

Physical Demands:

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee is frequently required to sit and reach with hands and arms. The employee is regularly required to use hands to finger, handle, or feel objects, tools, or controls and talk or hear. The employee is occasionally required to stand and walk.

Specific vision abilities required by this job include close vision, distance vision, color vision, peripheral vision, depth perception, and the ability to adjust focus.

Essential Personnel:

This function/position has been designated as “essential.” This means that when the College is faced with an institutional emergency, employees in such positions may be required to remain at their work location or to report to work to protect, recover and continue operations at the College.

Minimum Requirements:

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily.

- Bachelor’s degree in an appropriate field from an accredited institution and seven (7) years of data processing experience; either in programming or analysis activities
- Experience in developing N Tier applications; as well as, Web application with ASP and object oriented environment
