At both centers you can get a fitness assessment, blood pressure reading, target heart rate, BMI calculation, body fat measurement, equipment orientation and custom exercise prescription.

The Wellness Center offers all of the above as well as a state-of-the-art, complete health and fitness computerized assessments and metabolic testing.

CARDIOVASCULAR CLASSES (IMPACT LEVELS)

Fat Flush Level I (low-mod)- A circuit workout that alternates between low to moderate intensity aerobic exercises. This is a class that incorporates a variety of exercises at an interval pace. This class will prepare you for the next level class and will involve both cardiovascular and strength benefits.

NEW! Fat Flush, Level II (Mod-High). Need a change up in your routine? Not getting results, try adding a circuit class to the routine. Same as level I but with advanced intensities, and variations of training exercises.

The ZONE- (Mod-High) Looking for something different in your workout? Then this is your class that will increase your metabolism and give you results! This class involves a trainer-directed approach incorporating exercises that will lead you into your heart rate training zone. Exercises will be combined involving lunges, squats, steps, dumbbells and resistant bands. Participants will be encouraged to wear a heart rate monitor that will be provided.

NEW! Cardio Kickboxing- Mod-high.) This class combines upper and lower body boxing techniques into a complete full body, cardiovascular, high calorie burning workout

NEW! Fitness Boot Camp– (Mod-High) Do not head home without burning over 700 calories. This is the hottest fitness craze that instantly delivers results you can measure by getting back into your “skinny” jeans. However, get ready to sweat and work hard for it.

Zumba (Low-high)- a fusion of Latin and International music - dance themes that create a dynamic, exciting, effective fitness system! The routines feature aerobic/fitness interval training with a combination of fast and slow rhythms that tone and sculpt the body.

STRESS REDUCTION, FLEXIBILITY AND CORE IMPROVEMENT

Yoga (low) This class combines a sequence of shortly held poses. You will learn about proper physical alignment and breathing and the benefits of individual poses. Stretch, strengthen and tone while learning to focus your mind. Yoga can help you achieve better mental and physical health.

NEW! Yogalates– This class combines the movements of yoga and Pilates in one. Benefits will include enhancing your flexibility, stress reduction while improving overall body and mid region (core) strength.

MUSCLE STRENGTHENING CLASSES

Physique Training (low-mod)- Come strengthen and tone your body with this intense muscle building routine. From your legs to your shoulders, nothing will be missed. Exercises range from weight lifting to plyometric exercises. Exercises will be conducted utilizing power bars, resistance bands, dumbbells, step benches and stability balls. This is a complete body toning, circuit class that will make you sweat!
