Jose Estabil, director of entrepreneurship and innovation at the Massachusetts Institute of Technology will return to **Miami Dade College**, his alma mater, as part of the college's Innovation-IMPACT Talks series on Feb. 16. The event is free.

Estabil has spent more than 20 years translating technologies into businesses, according to a news release from The Idea Center at Miami Dade College. Currently he is helping to launch the Skolkovo Institute of Science and Technology in Moscow.

He holds 10 patents and has co-authored more than 20 publications in semiconductor materials engineering and metrology, and is a founding adviser of the Idea Center at Miami Dade College.

The talk is at 10 a.m. at the Science Complex at Miami Dade College's North Campus, 11380 NW 27th Ave., Miami.
