I. PURPOSE

To assure compliance with the substantive change requirements of the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). A substantive change is a significant modification or expansion of the nature and scope of an accredited institution as defined by SACSCOC. Substantive change guidelines and requirements are available on the SACSCOC website at www.sacscoc.org or by contacting the College’s SACS Accreditation Liaison. SACSCOC notification and/or approval may be accomplished through prior SACSCOC notification or may require a complete prospectus and, even, an on-site SACSCOC evaluation visit.

Substantive changes as defined by SACSCOC include but are not limited to:

- offering part or all of a program or courses through contractual agreements or a consortium
- commencing or expanding off-campus sites or distance education programs
- initiating a degree completion program
- expanding programs at the current credential level
- offering more than 24% of a certificate or degree program at an off-campus site (including dual enrollment sites)
- initiating courses or programs at a different credential level
- substantially altering the number of clock or credit hours for successful completion of a program or changing from clock hours to credit hours
- significantly changing the length of a program
- closing a program
- relocating an off-campus site, main campus or center
- significantly altering the mission of the institution
- changing governance, ownership, control or legal status
Failure to comply with the substantive change procedures of SACSCOC can result in serious consequences that include suspending the activity until SACSCOC approval is received, requiring the College to pay back financial aid dispersed to students, placing the College on sanctions, or removing the College’s accreditation.
