Learn the best practices and principles of the trade from the largest construction companies in the nation.

Learn from the top professionals in our ten week training series with topics such as Risk Management, Change Order Management, Business Development, Blue Print Reading and Specifications, Purchasing and Bidding Procedures, Pre-construction and Estimating, Cost and Budget Control, Financial Management, Safety on the Jobsite, OSHA, Project Engineering and Records Set-up, Building Code Compliance, Job Planning and Set-up, Insurance and Bonding, Building Information Modeling (BIM), Workers Compensation and more.

For more information contact: Rhonda Wimberly  
Turner Construction Company, Community Affairs Director  
(786) 621-9004 or [rwimberly@tcco.com](mailto:rwimberly@tcco.com)  
Fax your completed registration forms to (786) 621-9005

*The Turner School of Construction Management is an educational program designed by Turner to assist disadvantaged, small, minority and women owned businesses in the best principles and practices in the construction industry. Each graduate receives credit for 40 contact hours (4 continuing education units) which can be utilized towards the renewal of their state contractors' license.*

*In 10 easy weeks, you will have the opportunity to have industry experts and community leaders explain how certain key factors will help you run a more efficient construction company.*

**Turner**
