Photographic Technology

WHAT IS PHOTOGRAPHIC TECHNOLOGY?

For the creation and preparation of photographic images, the photographer selects and assembles equipment according to subject matter, anticipated conditions, and knowledge of function of various types of cameras, lenses, and accessories. Photographers plan camera angles and subject composition in order to produce a desired photographic print.

WHAT DOES MDC OFFER?

MDC's Photographic Technology program offers students hands-on training along with a solid academic background. The program offers a comprehensive variety of various cameras and studio equipment to prepare the student for entry into the field of photography ensuring a successful and rewarding career.

WHERE CAN I WORK?

Photographers work for portrait studios, cruise lines and vacation destinations, ad agencies, newspapers and magazines, or on their own as freelance photographers.

WHAT SKILLS WILL I LEARN?

- Portrait and still photography
- Fashion photography
- Illustrative photography
- Biomedical and forensic photography
