*Note:* If you want to see pop-up windows from a specific Web site, type the address (or URL) of the site in the Address of Web site to allow box, and then click Add.

Pop-up Blocker Settings window

**Tip:** To temporarily allow a site to display pop-ups, click the Information Bar when it notifies you that a pop-up has been blocked. Then click Temporarily Allow Pop-ups.

**To block pop-ups even if they are launched when you click a link or button on a Web site.**

Open Internet Explorer.
On the Tools menu, point to Pop-up Blocker, and then click Pop-up Blocker Settings.

Select the High setting in the box near the bottom of the dialog box.

*Note:* If you want to see pop-ups that are blocked when you have this setting turned on, hold down the CTRL key while the window opens.

For further assistance, please click on http://www.microsoft.com/windowsxp/using/web/sp2_popupblocker.mspx

**To change Pop-up Blocker settings in Macintosh**

One can disable or allow some pop-ups using a menu, or disable the software for just one window by holding down the control ‘z’ while clicking on the link.

**To change Pop-up Blocker settings in Netscape 7.02**
