Miami Dade College

Course Description

FIL2560C | Editing Level 3: Advanced Editing: Color Correction and Finishing | 3.00 credits

An advanced course in which students will learn the practice of color correcting and finishing fiction and non-fiction projects. Prerequisite: FIL2553C**.**

Course Competencies:

Competency 1: The student will understand and apply image finishing techniques by:

1. Arranging industry workflows from acquisition to delivery
2. Identifying various monitoring and display tools for effective quality control
3. Implementing standard codes and formats
4. Employing industry-standard color correction, image control, and manipulation techniques

Competency 2: The student will understand and apply image delivery techniques by:

1. Identifying industry standard distribution methods
2. Demonstrating online video uploading techniques
3. Recognizing web-based distribution technologies
4. Creating an entirely authored project

Competency 3: The student will understand the process of manipulating still images by:

1. Identifying the various applications for manipulated images
2. Developing a vocabulary for image manipulation techniques
3. Enhancing images using image manipulation software
4. Applying enhanced images to a media project

Learning Outcomes:

- Communicate effectively using listening, speaking, reading, and writing skills
- Solve problems using critical and creative thinking and scientific reasoning
- Demonstrate an appreciation for aesthetics and creative activities
