**Course Competency** | **Learning Outcomes**
---|---
**Competency 1:** The student will remediate concepts needed for College Algebra by:  
1. Participating in group activities working on concepts needed to be successful in College Algebra.  
2. Participating in group activities comparing and interrupting each other’s work.  
3. Participating in Socratic dialog to increase understanding of basic math concepts.  
4. Working on worksheets to prepare them for College Algebra concepts.  
• Communication  
• Numbers / Data  
• Critical thinking  
• Aesthetic / Creative Activities

**Competency 2:** The student will reinforce concepts of College Algebra by:  
1. Participating in group activities to discuss and share problem solving techniques.  
2. Explaining methods learned in College Algebra.  
3. Using prior learned concepts to develop College Algebra concepts.  
• Communication  
• Numbers / Data  
• Critical thinking  
• Information Literacy  
• Aesthetic / Creative Activities

**Competency 3:** The student will apply their knowledge of College Algebra to real world applications by:  
• Communication  
• Numbers / Data  
• Critical thinking  
• Information Literacy  
• Social Responsibility  
• Aesthetic / Creative Activities
