

Course Description

NUR2310L | Pediatric Nursing Clinical | 1.00 credit

This course allows the student to apply the nursing process to the care of clients in selected pediatric clinical settings. Students will learn to observe cultural diversity and implement care to the pediatric client, family, and community through preventive, therapeutic, and palliative measures. Prerequisites: NUR1211, NUR1211L, NUR1214C; Corequisite: NUR2310

Course Competencies:

Competency 1: Perform a comprehensive pediatric health assessment of various age groups (infant, toddler, pre-school, school age and adolescent) that identifies deviations from normal as well as health risks

Competency 2: Utilize organizational, time management, and priority setting skills when making care-related clinical judgments about the management of the pediatric population

Competency 3: Develop an individualized, evidence-based plan of care that demonstrates an appreciation of the diverse backgrounds and developmental variations of the pediatric population while making recommendations for the adoption of health-promoting behaviors

Competency 4: Integrate knowledge of pharmacology, pathophysiology, nutrition, established evidence-based practices and concepts from previous nursing courses when caring for the pediatric population

Competency 5: Act as a patient advocate when collaborating with members of the inter-professional healthcare team in the provision of safe, quality care for the pediatric population
