

Course Description

TPP1190 | Studio Theatre-Cast | 1.00 credit

Practical application of skills acquired in acting classes through public presentation of student-produced studio theatre as a member of the cast. May be repeated for credit. Prerequisite: Permission of department chairperson

Course Competencies:

Competency 1: The student will demonstrate performance technique by:

1. Exploring and refining various performance techniques, including voice modulation, physicality, character development, and emotional expression
2. Cultivating the ability to embody diverse characters and conveying compelling narratives on stage

Competency 2: The student will demonstrate rehearsal and collaboration teamwork by:

1. Implementing learned strategies for script analysis, blocking, improvisation, and scene study
2. Fostering a supportive environment where actors, directors, and designers collaborate to bring performances to life

Competency 3: The student will demonstrate characterization and dramatic interpretation skills by:

1. Developing nuanced performances that resonate with authenticity and depth
2. Building deeper characterization and dramatic interpretations based on foundational acting principles

Competency 4: The student will demonstrate performance critiques and reflection by:

1. Engaging in critical analysis of their performances and those of their peers
2. Applying exercises of constructive feedback sessions and guided reflection to develop a discerning eye for theatrical craft and cultivate a reflective practice that fosters continuing growth and improvement as performers

Competency 3: The student will demonstrate professionalism and ethical responsibility skills by:

1. Identifying and practicing the ethical and professional responsibilities of theatre practice
2. Exploring through discussions, readings, and real-world case studies the issues of representation to navigate the complexities of the theatrical industry with integrity and sensitivity

Learning Outcomes:

- Solve problems using critical and creative thinking and scientific reasoning
- Demonstrate an appreciation for aesthetics and creative activities.
