

# Certified Logistics Technician (CLT) For Military & Veterans

**What is CLT:** The Certified Logistics Technician (CLT) is an industry-recognized, nationally portable certification for frontline (entry-level through frontline supervisor) material handling and distribution workers. For military personnel in occupational specialties related to logistics, this certification can help you show a civilian employer that in addition to your military experience, you also have a foundational knowledge of how their industry works. If you have a difference occupational specialty and are thinking of switching to logistics, the CLT can help you make that transition.

## WHAT ARE CLT JOBS?

CLT can prepare you for jobs throughout the logistics industry including production sites, warehouses, distribution centers and transportation companies. Types of jobs include:

- Frontline supervisors of transportation and material handling workers
- Material handling and moving workers
- Order processors
- Packers & packagers
- Automated material moving equipment operators

## WHERE CAN I FIND MORE INFORMATION?

For more information on MSSC's military programs please visit us:

[www.msscusa.org/military](http://www.msscusa.org/military)

The CLT program includes two assessments: the foundational Certified Logistics Associate (CLA) and the mid-level Certified Logistics Technician (CLT). You must earn the CLA before CLT. CLA includes introductory information to the world of logistics: Safety, Quality Control, Terminology, Equipment, Communication and Teamwork, Computer Programs. CLT includes more technical activities: Product Receiving and Shipping; Order Processing, Packaging; Inventory Control; Transportation; Dispatch and Tracking.

## How to get Certified

- Register and find a location, MSSC has over 600 assessment centers including some on military bases
- See if you qualify for military funding (Army COOL, Navy COOL, GI Bill, etc.), or ask your education center
- Prepare for the assessment: See the Candidate Handbook, or ask MSSC about online courses
- Schedule the assessment with the assessment center you chose
- Take the assessment

### Cost

Registration:	\$60
