

**MIAMI DADE COLLEGE
MEDICAL CAMPUS
Student Health Record Form**

Name: _____ **MDID:** _____
Last First Middle Initial

I understand that student health information is protected and confidential under State of Florida and federal laws. I voluntarily provide, and consent to my medical provider or physician providing, the medical information contained in this document to the Miami Dade College and health care facilities that I am assigned to as part of Miami Dade College's medical program requirements. I also understand that all requested Student Health Record information is a prerequisite to enrollment in the clinical training of any Medical Campus program. Failure to complete this record will prevent my participation in the clinical training. The student and Health Care Examiner (MD, DO, PA, ARNP) must sign in the appropriate spaces provided on the form. **This form and documentation of all titers, vaccines, drug screening, TB testing, and x-rays requested on this form must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>.**

SECTION 1: PERSONAL INFORMATION

All areas of this section must be completed. This information will be kept on file and used in the event that the student must be contacted or an emergency contact is required.

SECTION 2: REQUIRED INFLUENZA INJECTION (FLU SHOT)

Students participating in a clinical rotation must receive the influenza injection as soon as it is available and show proof to the school and the health care facility. Students that cannot participate in the influenza injection process as a result of a medical condition or refuse to participate in the influenza injection may be required to participate in additional measures established by a clinical site. Additionally, it may jeopardize the student's ability to participate in the clinical portion of a Medical Campus program. It is highly recommended that all students receive the influenza injection.

SECTION 3: REQUIRED TITERS/TESTS

- A. Varicella (Chicken Pox):** A Varicella Titer must be drawn and ***the results must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>.*** A record of the Varicella Vaccine will not be accepted as documentation of the required titer. The date of the titer and results must be indicated in the appropriate area. **(INDICATING THE DISEASE PROCESS OR IMMUNIZATION DATES IS NOT ACCEPTABLE FOR DOCUMENTATION IN THIS AREA).**

Mumps, Rubeola (Measles), and Rubella (German Measles): A Mumps, Rubeola, and Rubella Titer must be drawn and ***the results must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>.*** A record of the MMR (Mumps, Measles, Rubella) Vaccine will not be accepted as documentation of the required titer. The dates of the titers and the results must be indicated in the appropriate area. **(INDICATING THE DISEASE PROCESS OR IMMUNIZATION DATES IS NOT ACCEPTABLE FOR DOCUMENTATION IN THIS AREA).**

- B. TB Skin Test:** Two consecutive TB Skin Tests are required. The TB Skin tests can be repeated a minimum of seven days apart. ***The dates and results of each TB Skin Test must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>.*** The Skin Tests must have been performed within the last three (3) months to be considered a recent test. Results from QuantiFERON are acceptable within the last three (3) months.

Chest X-ray: A recent Chest x-ray is required if a positive TB skin Test or QuantiFERON is reported or there is a history of a positive TB Skin Test. The chest x-ray must have been completed within the last three (3) months to be considered current. ***Results must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>.***

- C. Drug Screening:** A minimum of a 10-panel drug screen is required. A second drug screen test may be required by some health care facilities. ***A positive result on this test will result in the student's inability to participate in the clinical portion of any Medical Campus program at Miami Dade College. The results must be indicated and uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>.***

Section 4: Hepatitis B Vaccine

Students must provide documentation of the initiation or completion of the Hepatitis B vaccine series at the time of application. It is highly recommended that the student complete the series while enrolled in the program. Further information of the Hepatitis B Vaccine is provided on the Student Health Record Form on page 3. ***A record of the Hepatitis B Vaccine or antibody test results must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>.***

Section 5: Tdap (Tetanus, Diphtheria, Pertussis) Vaccination

Students must provide documentation of the Tdap vaccination within the last ten (10) years. ***Documentation must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>.***

Name: _____ **MDID:** _____

 Last First Middle Initial

Section 6: Student's Statement

Student must read and sign this statement on page 4 of the Student Health Record.

Section 7: Examiner's Statement

The Health Care Examiner (MD, DO, PA, and ARNP) must read, sign, and confirm that the student can meet the Physical Demands associated with the program in the Examiner's Statement Area on page 4 of the Student Health Record.

Please Place Health Care Provider Office Stamp or Attach Business Card Here (Required):

SECTION 1: PERSONAL INFORMATION

_____ Address		Apt.# _____	_____ E-mail address
_____ City		_____ State	Gender: M _____ F _____
____ / ____ / ____ Date of Birth		_____ Zip Code	_____ Home Telephone Number
_____ Person to Notify in Emergency		_____ Relationship	_____ Cellular Phone Number
_____ Contact Telephone Number			

SECTION 2: INFLUENZA INJECTION *(Documentation must be uploaded to Complio by American Data Bank at*

<http://www.mdccompliance.com/index.html>.)

Date of injection: _____

I understand that if I cannot participate in the influenza injection process as a result of a medical condition or refuse to participate in the influenza injection, I may be required to participate in additional measures established by a clinical site. Additionally, it may jeopardize my ability to participate in the clinical portion of a Medical Campus program.

STUDENT SIGNATURE: _____ **DATE:** _____

SECTION 3: REQUIRED TITERS/TESTS

Parts A, B, C: THESE BOXES ARE TO BE COMPLETED BY AUTHORIZED MEDICAL PERSONNEL ONLY

A. REQUIRED TITERS: (Documentation must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>.)

A Varicella (Chickenpox), Mumps, Rubeola (Measles), and Rubella (German Measles) Titer must be drawn and the results attached. **A record of Vaccines WILL NOT BE ACCEPTED as documentation for the required titers.** The dates of the titers and the results must be indicated in the appropriate area below. **(INDICATING THE DISEASE PROCESS OR IMMUNIZATION DATES IS NOT ACCEPTABLE FOR DOCUMENTATION IN THIS AREA).**

TITER	DATE	LAB RESULTS <i>(Documentation must be uploaded to Complio by American Data Bank at http://www.mdccompliance.com/index.html.)</i> (Numerical Value of Results Must Be Reported Below)	Please Circle
Varicella (Chickenpox) Titer	<div> <div></div> <div></div> <div></div> </div> <div> Month Day Year </div>		Immune/ Not Immune
Mumps Titer	<div> <div></div> <div></div> <div></div> </div> <div> Month Day Year </div>		Immune/ Not Immune

Name: _____ **MDID:** _____

 Last First Middle Initial

Rubeola (Measles) Titer	<div> <div></div> <div></div> <div></div> </div> <div> Month Day Year </div>		Immune/ Not Immune
Rubella (German Measles) Titer	<div> <div></div> <div></div> <div></div> </div> <div> Month Day Year </div>		Immune/ Not Immune

B. TB SKIN TEST/ QUANTIFERON /CHEST X-RAY

Two consecutive TB Skin Tests are required. ***The TB Skin tests can be repeated a minimum of seven days apart. The dates and results of each TB Skin Test must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>.*** The Skin Tests must have been performed ***within the last three (3) months*** to be considered a recent test. Results from QuantiFERON are acceptable. ***In the event the results indicate a positive skin test or QuantiFERON, or the student has a history of a positive TB skin test, a chest x-ray is required. The chest x-ray must have been completed within the last three (3) months to be considered current. Results must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>.***

TEST	DATE	RESULTS	Results must be uploaded to Complio by American Data Bank at http://www.mdccompliance.com/index.html .
TB Skin Test 1st Test	____/____/____ Month Day Year	Positive ____ Negative ____	If positive skin test, current chest x-ray is required.
TB Skin Test 2nd Test	____/____/____ Month Day Year	Positive ____ Negative ____	If positive skin test, current chest x-ray is required.
QuantiFERON	____/____/____ Month Day Year	Positive ____ Negative ____	If positive, current chest x-ray is required.
Chest X-ray	____/____/____ Month Day Year	Positive ____ Negative ____	Results must be uploaded to Complio by American Data Bank at http://www.mdccompliance.com/index.html .

C. DRUG SCREENING

A **minimum** of a 10-panel drug screen is required. A *positive result on this test will result in the student's inability to participate in the clinical portion of any Medical Campus program at Miami Dade College.* The results must be indicated and **uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>.**

TEST	DATE	RESULTS	
Drug Screen (10 Panel)	<div> <div> <div></div> <div>Month</div> </div> <div> <div></div> <div>Day</div> </div> <div> <div></div> <div>Year</div> </div> </div>	Positive _____ Negative _____	<i>Results must be uploaded to Complio by American Data Bank at http://www.mdccompliance.com/index.html.</i>

SECTION 4: HEPATITIS

Introduction: Health care professionals are at risk of exposure to blood and body fluids contaminated with the viruses that cause HIV and Hepatitis. Consistent use of Standard Precautions is the best known means to avoid transmission of these viruses or other contaminants. Students will be taught Standard Precautions before they provide care to any patient in the clinical setting. Although it is rare, a health care worker may become exposed to one of these viruses through accidental transmission. Currently, there is no vaccine that protects against the HIV virus. However, the Hepatitis B vaccine is an effective means of preventing Hepatitis B. As a student who will be providing direct patient care, you should discuss this vaccine with your health care provider.

About the Vaccine: The Hepatitis B Vaccine is a genetically engineered “yeast” derived vaccine. It is administered in the deltoid muscle (arm) in a series of three doses over a six month period. You should seek additional information about the vaccine from your health care provider; especially if you have an allergy to yeast or may be pregnant, or are a nursing mother.

Name: _____ MDID: _____
Last First Middle Initial

I have initiated the Hepatitis B Vaccine Series with my first dose listed below: (**Documentation must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>**)

1st Dose: Date: ____/____/____

2nd Dose: ____/____/____
(One month after 1st dose)

3rd Dose: ____/____/____
(Six months after 1st dose)

OR

I have already completed a Hepatitis B Vaccine Program with dates of injections listed below: (**Results must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>**)

1st Dose: Date: ____/____/____

2nd Dose: ____/____/____
(One month after 1st dose)

3rd Dose: ____/____/____
(Six months after 1st dose)

OR

Antibody testing has revealed that I have immunity to Hepatitis B. Yes _____ No _____
(**Results must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>**)

SECTION 5: Tdap (Tetanus, Diphtheria, Pertussis) Vaccination

Students must provide documentation of the Tdap vaccination within the last ten (10) years.

Received: ____/____/____
Month Day Year

(**Documentation must be uploaded to Complio by American Data Bank at <http://www.mdccompliance.com/index.html>**)

SECTION 6: STUDENT'S STATEMENT

In order to satisfy medical program requirements, I hereby consent to the release and disclosure of my personal health information provided on the **Student Health Record Form** to Miami Dade College and any health care facility in which I am assigned for on-site clinical training. I understand that my personal health information is required to facilitate my participation in the clinical training, which is required for program completion. I also hereby release and hold harmless Miami Dade College and receiving health care facilities from any claim of violation of HIPAA or any other medical privacy rights that may arise for the release of my personal health information provided in the **Student Health Record Form**.

PHYSICAL DEMANDS

In order to fulfill the requirements of the Respiratory Care Program, students must be able to meet the physical demands associated with the profession. Examples of these requirements include but are not limited to the following:

Code: F = frequently O = Occasionally NA = Not Applicable

Physical Demands	Code	Comments
Standing	F	Very little time is spent sitting down except for when entering patient data. Aptitude for work of this nature is good, and physical stamina, endurance and body condition that would not be adversely affected by lifting, carrying, pushing and pulling. Motor coordination is necessary for the well-being of the patient during specific RC procedures performed.
Walking	F	
Sitting	O	
Lifting (up to 125 pounds)	O	
Carrying	O	
Pushing	F	
Pulling	F	
Balancing	F	While using good body mechanics during patient procedures, stooping, kneeling and reaching is required to effectively perform procedures.
Climbing	N/A	
Crouching	O	
Crawling	N/A	
Stooping	O	
Kneeling	O	
Reaching	O	
Manual Dexterity	F	
Talking	F	Responding to physicians, co-workers and health care workers through hearing is necessary in the transmitting of patient information. Sight is used to distinguish landmarks, visually inspect patients, enter, collect and analyze data.
Hearing	F	
Seeing	F	
Communicating	F	

(For specific Performance Standards associated with the Respiratory Care Program please contact the Program Coordinator at 305-237-4423.)

Limitations: _____

SECTION 7: EXAMINER'S STATEMENT

I have verified that the individual I have examined is the named individual on this document and that the information about the test results are correct. This individual can participate in all activities required to provide health care to patients in an acute or chronic care facility, emergency setting or any other situation that is part of the learning experiences in the designated health care program. The student is able to meet THE PHYSICAL DEMANDS that are listed above. **(List any limitations associated with this student in the area provided).**
