Dear Mentors,

Thank you for your commitment to be a mentor in the MDC Student Veteran Peer Mentor Program. As you are aware, transitioning into the role of college student while serving or after separating from the military, regardless of how much time has passed, is an ever changing and challenging task.

Many Veterans have mention to me, they wish they knew then what they know now. You learned so much as a new student transitioning out of the military into the civilian world. You have learned the process of certifying your classes, helpful ways to stay on track so your grades remain intact, helpful ways to coordinate school, work and family time. Now, as a Student Veteran mentor you can give back and bring someone up with the valuable lessons you have learned.

The peer mentor program is a way for you to connect with incoming student Veterans to help them navigate student life, identify challenges they may encounter, provide appropriate resources on and off campus, and offer ongoing support toward academic success.

Becoming an MDC Student Veteran Peer Mentor provides an opportunity to serve as a trusted friend and leader in the development and support of a fellow Service Member or Veteran. Your continued service will undoubtedly make a positive impact on your mentee’s success here at MDC.

It is my hope that this handbook will be a resource and starting point as you take on the fulfilling role of a mentor.

Thank you for your continued service! We are grateful to you for all that you have done and will continue to do.

It is my honor to serve those that have served. Please reach out when you need additional guidance within this amazing opportunity.

Thank you,

Donna Zazanis-Burke

Program Expectations

The Student Veteran Peer Mentor Program is designed to connect newly enrolled MDC Student Veterans with current Student Veterans to provide support, resources, and increase campus and community engagement. Student Veteran Peer Mentors will use their leadership skills to guide Mentees towards academic success; providing comradery and a supportive environment during the transition to college life.

As a mentor, you are about to begin a very rewarding and fulfilling experiences. Your commitment indicates that you recognize the responsibility that you accepted and agree to interact appropriately with your mentee according to the highest ethical standards at all times. Please read the following guidelines carefully.

Your continued academic success is as important as your mentee’s. Please maintain your cumulative GPA at a 2.5 or above. If you feel, at any time, that you need to step back from your role, please communicate with the MDC Peer Mentoring staff so that we may arrange for your mentee to continue being mentored until you are able to return.

The mentorship program is a commitment. Please maintain communication with your mentee. It is recommended you spend at least four hours a month meeting with your mentee in person. If you are unable to meet in person for the recommended time, please communicate by other means that you and your mentee are comfortable with. Zoom and/or Microsoft TEAMS meetings are other viable mediums. Please use a portion of your meeting times to discuss topics such as overcoming transition challenges, resources, study skills, and academic goals. Discussions should be guided towards positive outcomes. The training you receive will help you facilitate these discussions.

Mentorship is only successful if it is collaborative. Please review the below guidelines that may help you to develop your mentor-mentee relationship.

- Trust is of utmost importance, always follow-through with what you commit to do.
- Remain engaged during meetings, actively listen and ask questions.
- Give frank and kind feedback whenever appropriate.
- Encourage your mentee by giving them genuine positive reinforcement.
- Serve as a positive role model adhering to the values engrained in you by your military service.
- Respect your mentee’s time and resources.
- Openly and honestly share lessons you have learned from your own experiences.
- Seek assistance if a situation or question is brought to you that you are unfamiliar with.
- Be patient, developing the mentor-mentee relationship takes time.
- Integrity, respect, courage and an exceptional attitude will help you succeed.
Your health and safety and that of your mentee is priority. If you feel uncomfortable in a situation, please excuse yourself and notify the MDC Peer Mentor staff if you feel that this will become a recurring issue. Resources are also listed that you may contact in case of an urgent issue.

You are not expected to spend money on your mentee. If the mentee is in need of financial assistance, please refer them to one of the appropriate resources available on and off campus.

You should avoid any action that may be considered as academically dishonest. You should not and are not expected to help with coursework. Please do not do the work for your mentee and especially do not help with exams. MDC has an excellent tutoring program found in the list of resources.

Discussions between you and your mentee are considered confidential. Be careful about sensitive personal issues. The mentee’s personal or family life may be difficult to discuss, particularly early in the relationship. It is important not to measure the success of the relationship by the extent of the mentee’s disclosure.

Process and Records

Each mentor is assigned two mentees per semester. A maximum of two mentees allows the mentor to manage their own class obligations and allows time for monthly reporting of activity.

Mentors receive $75 per mentee per semester.
Mentee Survey

During your first meeting, you should complete this survey for you to reference as needed.
