

Migrate Google Drive Data to OneDrive using Mover

The steps below will guide you on how to migrate your Google Drive data to OneDrive using Microsoft's Mover tool.

Preparation Steps

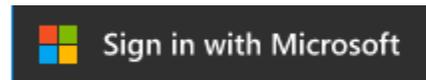

- Make sure you are able to login to your Student Email using your student username
FirstName.LastName00#@mymdc.net
- If you are having password issues, please visit <https://www.mdc.edu/password/>

Step 1:

In a browser window, go to <https://www.mover.io/>

On the top right, click **"Login to Mover"**

Under "Sign In" , click on the "Sign in with Microsoft" button:

Click your student (@mymdc.net) account under the **"Pick an account"** section

If your @mymdc.net account is not already showing, select **"Use another account"**

This will prompt you to enter your Email.

Enter your MDC student email: *FirstName.LastName00#@mymdc.net*

You may get prompted to request Permission for Office 365 Mover.

Click **"Accept"**

Permissions requested

This application is not published by Microsoft or your organization.

This app would like to:

- ✓ Maintain access to data you have given it access to
- ✓ View your basic profile

Accepting these permissions means that you allow this app to use your data as specified in their [terms of service](#) and [privacy statement](#). You can change these permissions at <https://myapps.microsoft.com>. [Show details](#)

Does this app look suspicious? [Report it here](#)

Cancel

Accept

Step 2:

You should now be looking at the Mover home screen

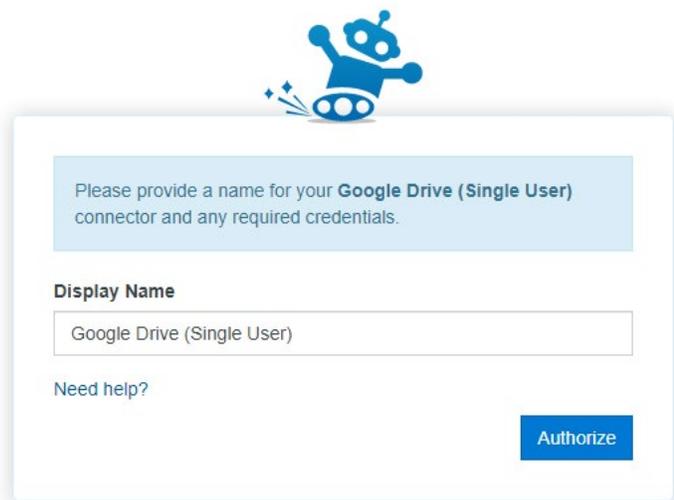

Step 1: Select source

Authorize New Connector

Click the **“Authorize New Connector”** button under the **“Step 1: Select Source”** section. From the list of applications click **“Authorize”** button next to **“Google Drive (Single User)”**

Click **“Authorize”** on the next screen:

You will now be prompted to **“Choose an account”**

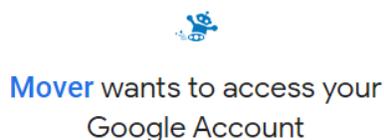

Select your @mymdc.net account.

If your @mymdc.net account is not already showing, select **“Use another account”**

This will prompt you to enter your Email.

Enter your MDC student email: FirstName.LastName00#@mymdc.net

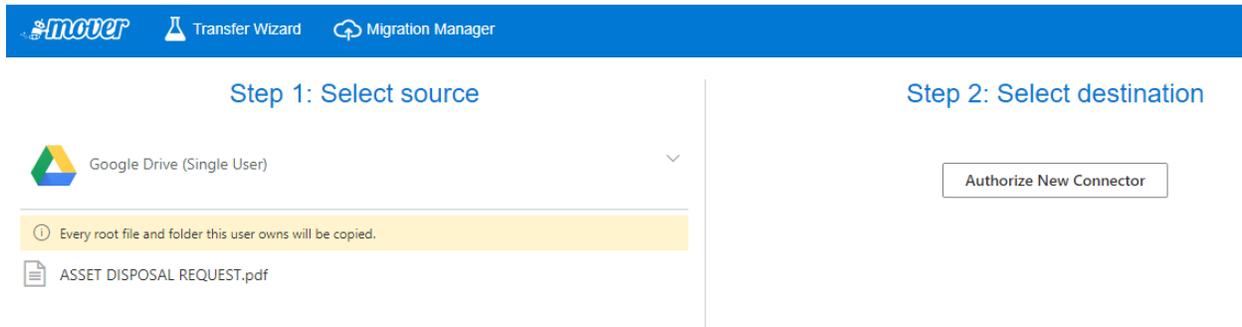

Click **“Allow”**

Step 3:

Back on the Mover home page, you should now see “Google Drive (Single User)” under the “Select Source” section.

Files that you currently have in your Google Drive will show up here.

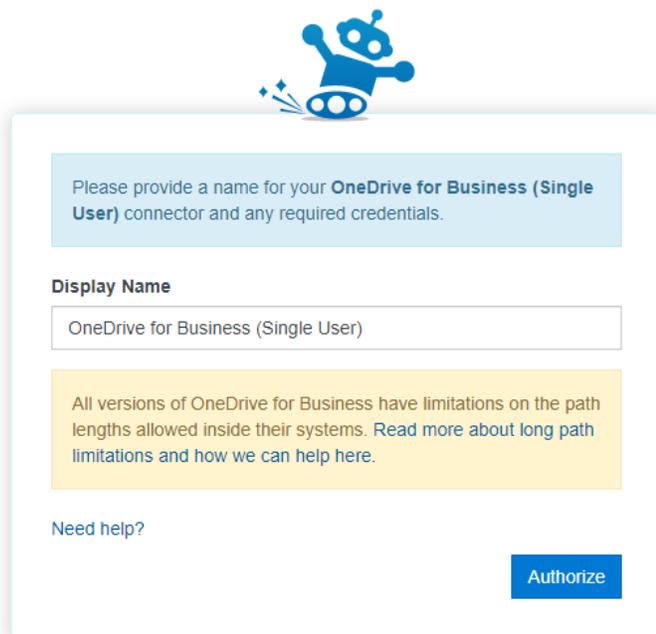

Click “**Authorize New Connector**” under the “Step 2: Select destination” section.

From the list of applications click “**Authorize**” button next to “**OneDrive for Business (Single User)**”:

Click “**Authorize**” on the next screen:

Enter your MDC Student Email: FirstName.LastName00#@mymdc.net

You will be redirected to an MDC login screen, Enter your password

Click **“Accept”** on the **“Permissions requested”** prompt:

Step 4:

Back on the Mover home page, you should now see **“OneDrive For Business (Single User)”** under the **“Select destination”** section

The screenshot shows the Mover Migration Manager interface. At the top, there are navigation links for '#Mover', 'Transfer Wizard', and 'Migration Manager'. The main area is divided into three steps:

- Step 1: Select source:** Shows 'Google Drive (Single User)' selected. Below it, a note says 'Every root file and folder this user owns will be copied.' and a file named 'ASSET DISPOSAL REQUEST.pdf' is listed.
- Step 2: Select destination:** Shows 'OneDrive for Business (Single User)' selected. Below it, there are options for 'Create Folder' and 'Shared with Everyone'.
- Step 3: Start transferring:** Shows a warning box: 'Long path restriction on OneDrive for Business (Single User)'. Below the warning, there is a 'Start Copy' button.

When you are ready to migrate your data,

Click the **“Start Copy”** button under the **“Step 3: Start transferring”** section.

The migration will begin.

Once completed you should see **“Success”** under the **“Status”** section.

Status	Source Path	Destination Path	Files Successful
 Success	 /	 /	1
