

# HOW TO USE BLACKBOARD ANALYTICS

*Tools*

## Course Analytics

### Course At-a-Glance

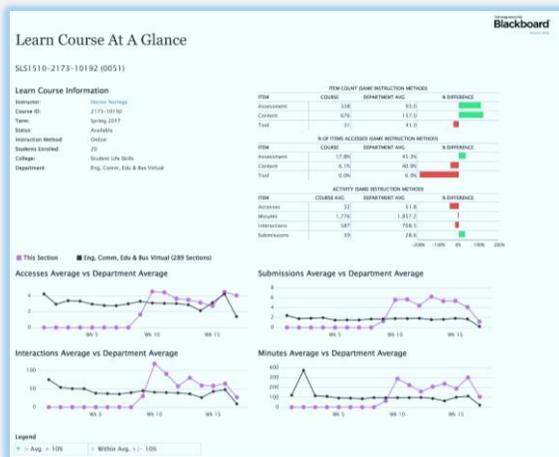

1. Click on Evaluation to expand menu
2. Click on Course Analytics
3. Click on Course At-a-Glance or press Run.
4. Upon completion, it will populate in a new tab. The report can be printed or exported using the icons at the top of the page..

This report will provide a summary information about the course and against a group of other courses in the same academic department and type of course. In addition, it displays the Student Activity Summary. When you click on a student name, it will display the individual activity.

You can use these reports to analyze the student by:

- How many times students access the course
- How long students are spending in the course?
- How the course compares to the average of other courses in the same department?
- How the students in the individual activity course compared to the average of all students enrolled in the course?

< Avg. - 10% | NA
